

**KERN**<sup>®</sup>

PROFESSIONAL MEASURING

**FAST – COMPETENT –  
RELIABLE – VERSATILE**

# FOR A PRECISE PARTNERSHIP

KERN the certified specialist for weighing and measuring technology, is Germany's oldest precision scale factory. By focusing on quality and developing customer-oriented products, KERN has stood for precision, service and quality worldwide since 1844.

Our product range includes an enormously wide range of robust bench scales, counting scales, platform scales, stainless steel

scales, floor scales, crane scales, measuring instruments for force, hardness, material thickness as well as microscopes and refractometers. The products are available at lightning speed from our large central warehouse in the middle of Europe via a 24-hour shipping service. Are you looking for customised system solutions for yourself or your customers? Our sales and service team will be happy to support you.

Precision,  
reliability,  
quality.

That's what we  
stand for!

## Digital coating thickness gauge KERN TF 1250-0.1FN

- + Premium measuring devices for paint coating, lacquer coating etc.
- + Offset-Accur: This function allows you to adjust the instrument precisely on the locally measured range by a two-point calibration. This results in a superior accuracy of approx. 1 % of the measured value

from € 600,-

## Ultrasonic thickness gauge KERN TN 30-0.01EE

- + Hand-held thickness gauge using the echo-echo method
- + Scan mode (10 measurements per sec.) or single point measuring mode possible
- + Internal memory for up to 20 files (with up to 100 values per file)

from € 980,-

## Mobile Leeb hardness tester KERN HN-D

- + "Pen type" hardness testing device in accordance with Leeb testing for mobile hardness testing of metals
- + The measuring device has been designed for one-hand operation and this allows the user to work more quickly and flexibly

from € 930,-

## Video microscope KERN OIV-2

- + The comprehensive digital solution for increased working comfort when carrying out continuous monitoring work in industry
- + The LED incident illumination unit (ring) included as standard guarantees the very best illumination of your sample
- + The excellent optical unit enables continuous sharp image tracking across the entire zoom range from 0.7x-5x

from € 3100,-
